1. Claims 49, 50, 52, 53, 56, 57, 64, 66, 83 and 88-119 are allowable. The restriction requirement among methods which require the elected gene and methods which require the elected gene plus additional subcombinations, as set forth in the Office action mailed on 10/2/06, has been reconsidered in view of the allowability of claims to the elected invention pursuant to MPEP § 821.04(a). **The restriction requirement is hereby withdrawn as to any claim that requires all the limitations of an allowable claim.**
2. In view of the withdrawal of the restriction requirement as to the linked inventions, applicant(s) are advised that if any claim presented in a continuation or divisional application is anticipated by, or includes all the limitations of, a claim that is allowable in the present application, such claim may be subject to provisional statutory and/or nonstatutory double patenting rejections over the claims of the instant application.

Once the restriction requirement is withdrawn, the provisions of 35 U.S.C. 121 are no longer applicable. See *In re Ziegler*, 443 F.2d 1211, 1215, 170 USPQ 129, 131-32 (CCPA 1971). See also MPEP § 804.01.

3. In an interview with Amy DeCloux on 10/15/08, applicant was informed of the withdrawal of the restriction requirement and indicated a preference that the applicant be passed to allowance, waiving any option to reinstate claims which have been rejoined, if any could have been presented.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue

fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
